

## 2GV 2017 PINOT NOIR CUVÉE

This cuvee represents a wine made by three second-generation, sibling-run wineries, exercising their expertise in the vineyards and cellar. This exceptional blend incorporates three estate vineyards, three AVA's and three winemakers celebrating friendship, craftsmanship and innovation.

Second Generation Vintners is a collaboration between the siblings at Elk Cove, Ponzi & Sokol Blosser. Founded in Oregon's Willamette Valley during the early 1970's, each winery was built on the mutual vision of making world-class pinot noir. Now under second-generation and echoing the same collaborative spirit of their parents, they've come together to share their pride, their story and the incredible wines they produce. Today, these wineries have grown their operations and are recognized internationally while remaining family-owned, operated and true to their roots.
